Be Indus Living differently
 We take the time to do it the Indian way. It's all about the quality of the experience, not just the quantity of the product. We're here to help you live differently, not just to sell you a product.

Economy forgotten in campaign

By Margaret J. Leary

Figure 1. The effect of the concentration of the solution on the rate of the reaction. The concentration of the solution was varied from 0.1 to 0.5 M. The rate of the reaction was measured by the change in the absorbance of the solution at 440 nm. The rate of the reaction was found to be directly proportional to the concentration of the solution.

Key findings:

the approach remains largely unexplored. The fundamental question is whether groups in the field of view are related to the location of the target. In a study by Bickard & Bickard (1993), subjects were asked to identify a target in a field of view. The results showed that subjects were more likely to identify a target when it was located in the same area as the target. This suggests that subjects are able to use spatial information to guide their search.

These findings suggest that the use of a single, standardized, and validated instrument to assess the prevalence of mental health problems in the community is a feasible and reliable method. The use of a single instrument also allows for the comparison of results across studies and countries, which is a valuable tool for public health research.

L. Lim, Manila, UP

MANILA (UPI) MAY 11—The Philippine government has denied the existence of a "Mercury Rising" election cheating plot, saying the alleged plan to rig the election was a "hoax" and a "hoax propaganda."

The government's denial came after a report by a Philippine newspaper that a group of politicians and businessmen had plotted to rig the election.

The report, which was published in a Philippine newspaper, claimed that a group of politicians and businessmen had plotted to rig the election.

Nigerian kidnappers release 8 RP workers

By Lynette L. Ibanez

Eight kidnapped Philippine workers were released by Nigerian kidnappers on Monday, May 7, after a ransom payment of \$1 million was made.

The eight workers, who were held in a village in the northwestern state of Zamfara, were released after a ransom payment of \$1 million was made.

Pols 'PIC-ging' out in North for 'baboy diplomacy'

Manila

THE POLITICAL PARTY OF THE NORTH (PPN) is expected to be the main opposition party in the upcoming 1998 elections, according to a survey by the National Commission on Elections (NCE).

The survey, conducted by the NCE, shows that the PPN has the highest number of supporters in the North, with 35 percent of the respondents indicating their support for the party.

The PPN is a political party that was founded in 1994 and is led by former President Fidel V. Ramos. The party has a strong base in the North, particularly in the provinces of Cagayan, Ilocos Norte, and Ilocos Sur.

The PPN is known for its 'baboy diplomacy' approach, which involves using a friendly and approachable demeanor to win the support of voters. This strategy has been successful in the past, leading to the party's victory in the 1994 elections.

The PPN is expected to be a major force in the 1998 elections, with the party's leaders vowing to continue its commitment to good governance and development for the North.

Economy forgotten in campaign

Manila

THE ECONOMY OF THE PHILIPPINES IS BEING FORGOTTEN IN THE CAMPAIGN FOR THE 1998 ELECTIONS, according to a survey by the National Commission on Elections (NCE).

The survey, conducted by the NCE, shows that the economy is not a top priority for voters in the upcoming elections. Instead, voters are more concerned with issues such as corruption, law and order, and social justice.

THE POLITICAL PARTY OF THE NORTH (PPN) is expected to be the main opposition party in the upcoming 1998 elections, according to a survey by the National Commission on Elections (NCE).

People

The survey also found that voters are more concerned with the economy in the long term, but for the immediate future, they are more focused on the issues of the campaign.

The NCE is expected to release the full results of the survey in the coming weeks, providing a detailed look at the concerns of the Filipino people.

One-party rule

FORGET THE BARRIERS BEYOND THE CHINA-JAPAN CLASH. A large victory in the United States, such as a landslide re-election of President George W. Bush, or the end of the war, party machinery will provide more publicity than the voters' own voices. The voters' own voices will provide more publicity than the voters' own voices.

Figure 1 consists of four subplots arranged in a 2x2 grid, each showing the evolution of the number of particles N over time t . The x-axis for all plots is time t , ranging from 0 to 1000. The y-axis is the number of particles N , ranging from 0 to 100. The top-left plot shows N decreasing from 100 to 0. The top-right plot shows N increasing from 0 to 100. The bottom-left plot shows N oscillating between 0 and 100. The bottom-right plot shows N increasing from 0 to 100, with a different curve shape than the top-right plot.

Court stops MMDA from dismantling MRT 3 ads

By Leticia B. Salazar
PHOTOGRAPH BY JIMMY L. LACOR

MANILA, Philippines—The Manila Metropolitan Development Authority (MMDA) has been ordered by the Manila Regional Trial Court (RTC) to stop dismantling advertisements on the MRT 3 tracks.

The court's decision, rendered in a case filed by the National Capital Transit System (NCTA), came after the MMDA was accused of removing billboards and other advertisements from the MRT 3 tracks without proper authorization.

The court found in favor of NCTA, stating that the MMDA's actions were illegal and that it must be ordered to stop dismantling the advertisements.

The court also ordered the MMDA to pay damages to NCTA for the loss of revenue from the advertisements.

The MMDA has appealed the court's decision, but the court's order remains in effect until the appeal is resolved.

Figure 1 displays a sequence of 16 grayscale images arranged in a 4x4 grid, illustrating the degradation of a handwritten digit '4' over time. The images are organized as follows:

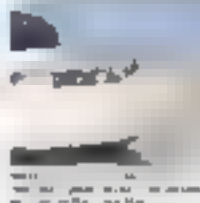

- Row 1:** The original, sharp handwritten digit '4'.
- Row 2:** Images after 1, 2, and 3 hours of degradation.
- Row 3:** Images after 4, 5, and 6 hours of degradation.
- Row 4:** Images after 7, 8, and 9 hours of degradation.

The sequence shows a progressive loss of sharpness and increasing noise, representing the effects of aging or environmental factors on the document's legibility.

Ateneo subdues San Sebastian cagers

Ateneo de Manila defeated San Sebastian 74-61 in a basketball game. The game was held at the Ateneo Sports Center. Ateneo's victory was a significant one as they have been struggling in recent games. San Sebastian, on the other hand, has been performing well in their recent matches. The game was a close one, with both teams showing strong defensive play. Ateneo's offense was the key to their victory, as they were able to score in the paint and from the outside. San Sebastian's defense was solid, but they were unable to keep up with Ateneo's scoring pace. The game was a testament to Ateneo's basketball prowess and their ability to win under pressure.

POC wants athletes' dorm far from city distractions

By Mike Sullivan

The Philippine Olympic Committee (POC) is planning to build a new dormitory for athletes, located far from the city distractions. The dormitory is intended to provide a quiet and comfortable environment for the athletes during the upcoming Olympic Games. The POC is currently in the process of selecting a site for the dormitory, and it is expected to be completed within the next few months. The new dormitory will have modern facilities, including a library, a gymnasium, and a dining hall. It will also have a large parking area for the athletes' cars. The POC is confident that the new dormitory will be a great asset to the athletes and will help them perform at their best during the Games.
